Tree Seedlings

The Arkansas Forestry Commission grows and sells forest tree seedlings for reforestation. AFC seedlings are grown at Baucum Nursery for one growing season. When the seedlings become dormant in the fall, they are lifted and packed "bare root" for shipment to designated cooler locations.

The AFC selects and grows only the best seed from its pine and hardwood seed orchards. An example is our 3 Star loblolly pine with 51 percent gain:

> If an acre of unimproved or woods run pine produces 1.5 cords of wood per acre per year; then the same acre of 51% genetically improved pine would produce 2.25 cords of wood per acre per year.

Terms & Conditions

- The AFC does not plant your seedlings. Visit our online Forestry Vendor directory to find a tree planter in your area. www.forestry.arkansas.gov/DirectorySearches/
- Seedlings purchased from the AFC are not for resale. Evidence of resale will constitute grounds for refusal of seedling orders.
- With proper handling, a landowner may expect approximately 90 percent of the seedlings to survive. The AFC ships healthy seedlings but provides no warranty concerning seedling survival or growth.
- To be assured of timely delivery, the landowner must contact the selected pick-up location **at least 5 working days** before the desired delivery date.
- The AFC reserves the right to reduce or cancel orders depending upon the availability of seedlings. If we do, we will refund your purchase price.
- The AFC will refund the purchase price if a landowner cancels the order before **December 1**.
- Full payment must accompany all seedling orders less than 100,000 pine or 50,000 hardwood; If your order is larger, you can apply for a credit account (contact Baucum Nursery to obtain a credit application). Bills will be sent after final seedling delivery. Full payment for larger orders is required within 30 days of billing date. Overpayment errors of $10 or less will not be refunded.
- For hardwood orders over 250,000, contact Baucum Nursery for special pricing.
