Improved Cherrybark Oak

AFC provides 2nd generation selections of cherrybark oak seedlings tested and selected in this region for adaptability (improved survival and quality) and vigor (increased rate of growth). These selections from across the region result in improved genetic diversity.

AFC Baucum Nursery is the only nursery offering improved cherrybark oak seedlings.

Cherrybark oaks may grow up to 120 feet tall with diameters of four to six feet. Heavy branches form a wide crown in the open. These trees grow best on bottomland loamy soils and on most well-drained terraces.

Pricing

\$400 per 1,000 seedlings

\$60 per 100 seedlings

\$40 per 25 seedlings
